

# Keerthi S

Software Developer | AI Machine Learning Enthusiast | IoT Developer

Mobile: +91 9361423211

Email: keerthisubramaniamm@gmail.com

LinkedIn: <https://linkedin.com/in/keerthi-s-1a44b431a/>

GitHub: <https://github.com/Keerthisubramaniamm>

Location: Erode, Tamil Nadu

## Personal Profile

Motivated Computer Science and AI-oriented developer with strong skills in programming, software development, automation, and problem-solving. Seeking opportunities in software development and AI-driven roles where I can apply my technical knowledge, analytical thinking, and continuous learning mindset to build scalable solutions.

## Education

### 2023 – 2027: Bachelor of Engineering

VSB Engineering College, Karur

**CGPA:** 8.07/10.00

### 2021 – 2023: Higher Secondary Education

Kongu Matric Hr. Sec. School, Erode

**Percentage:** 83.50%

## Academic Publications

### Design and Development of Long Short-Term Memory (LSTM) Networks-Based Home Energy Management System Using IoT Smart Meter

Published in IEEE, 2026

**Keerthi S, Nevitha R, Sangavi S, Rasika K**

**Paper Link:** <https://ieeexplore.ieee.org/document/11479041>

## Projects

### Agentic AI for Autonomous Workflow Automation

2025

**Tech Stack:** Python, LLMs, AI Agents, API Integration, Automation Frameworks

**GitHub:** <https://github.com/Keerthisubramaniamm/Agentic-AI-for-Autonomous-Enterprise-Workflows.git>

- Developed an autonomous AI agent system capable of executing multi-step workflows
- Designed task planning and decision-making logic for dynamic execution
- Integrated external APIs for real-time automation

### IoT-Based Smart Irrigation Monitoring System

2025

**Tech Stack:** NodeMCU, Python, Sensors, IoT

**GitHub:** <https://github.com/Keerthisubramaniamm/Hardware-Project.git>

- Built an IoT-based automation system for smart irrigation
- Implemented real-time monitoring using sensors
- Automated pump control based on moisture data

### Weather Now! — Real-Time Weather Web Application

2024

**Tech Stack:** HTML, CSS, JavaScript, REST API

**GitHub:** <https://github.com/Keerthisubramaniamm/Software-projects.git>

- Built a responsive weather forecasting web application
- Integrated real-time weather API
- Designed interactive UI with dynamic updates

### Tic-Tac-Toe Game (Player vs Computer) — Java Swing

2023

**Tech Stack:** Java, Swing, OOP

**GitHub:** <https://github.com/Keerthisubramaniamm/Software-projects.git>

- Developed a desktop-based game using Java Swing
- Implemented basic AI opponent logic
- Applied OOP principles and event handling

## Technical Skills

**Programming Languages:** Java, Python, C Programming

**Web Technologies:** HTML, CSS, JavaScript

**AI / Machine Learning:** Generative AI, Agentic AI, LLMs, Prompt Engineering, LSTM Networks

**Data Structures:** Arrays, Linked Lists, Stacks, Queues, Searching, Sorting

**Embedded Systems / IoT:** NodeMCU, Arduino, Sensor Integration

**Tools & Platforms:** Git/GitHub, VS Code, Arduino IDE

**Software Concepts:** OOP, API Integration, Automation, Problem Solving

## Professional Skills

Problem Solving • Analytical Thinking • Team Collaboration • Communication • Adaptability

## Certifications

- Applied Generative AI — Amazon Educate
- Machine Learning Foundations — Amazon Educate
- Introduction to Cloud 101 — Amazon Educate
- Data Structures and Algorithms using Java
- GPT for Developers
- Generative Models for Developers
- Introduction to OpenAI
- Python Programming Certification — Infosys
